

Wintest Corporation

Product and technology information

Automatic Test Equipment for Semiconductor Integrated Circuit and Flat Panel display.
Mainly, our market is Image sensor tester, LCD Driver tester and standard logic tester.

Company Introduction

We are expert for any semiconductor IC test such as Image sensor test and LCD DRIVER IC test. The feature on our test system is high speed through put, and compact design plus low power consumption. Installed base of our developed system are over 200-systems in world-wide.

Others (Comments)

We are aiming to become a top leader and committed to making the social contribution to the creation of new value of the test system such as Display panel and its peripheral device as well as Image sensor and its any of semiconductor auto test equipment.

Company Information

Industry Automatic Test Equipment for Semiconductor

Corporate name Wintest Corporation

Representative Sho Ki

Capital 1,654,000,000JPY

Number of Employees 62

Person In Charge Higuchi Masayasu

Head office 1-2-24 Hiranuma, Nishi ward, Yokohama KANAGAWA JAPAN 2200023

Main phone number TEL +81-45-317-7888 FAX +81-45-317-9255

Web address <https://www.wintest.co.jp>

Established date 1998-August

Main Clients CANON corp., Olympus corp., SANKEN corp., SEIKO EPSON corp.,
ProbeLeader Co., Ltd., PHYTEK Corporation, Wuhan Jingce Electronic
Technology Co.,Ltd.
