

## Product and technology information

1. Industrial heater used in factory manufacturing process  
Due to years of experience, we have a reputation for its high quality.
2. Real deal mechanical sensitive thermostat without electronic parts  
"SENSBEY" is the trademark of thermostats made by SENSBY in Japan.  
"SENSBEY" is widely used for the prevention of overheating machinery and equipment, such as railway vehicles, heating plate of semiconductor manufacturing system, navy and so on, because it is very strong against vibration and aged deterioration.
3. Automatic soldering machine  
We have collaborated with various kinds of users for many years to reduce defective products. Our machines are so robust that they keep reproducible in high temperature operation. We are proud of our soldering machines for their cost performance.

## Company Introduction

In 1945, we started as an electrothermal laboratory, which was the first manufacturer of sheath heaters in Japan. Today, we design and manufacture industrial electric machinery and equipment at our own factory in Yokohama. We have ever been studying the control of various heat systems since our establishment. Although the number of employees is small enough, we have been supplying products used as indispensable to the industry in Japan. We are confident in our achievements.

## Others (Comments)

[overseas expansion]

We will strengthen our direct sales system in Southeast Asia.

## Company Information

**Industry** Electric machines and equipments manufacturer

**Corporate name** SENSBY Co.,Ltd.

**Representative** Shigeaki Yamamoto

**Capital** 10,000,000JPY

**Number of Employees** 34

**Person In Charge** Ishitani Mitsuo

**Head office** 494-5 Aotocho, Midori-Ku, Yokohama City

**Main phone number** +81-45-938-5070

**Web address** <http://www.sensbey.co.jp>

**Established date** 2008/04/17

**Main Clients** Japan Rail Road,Toyota,Panasonic
